

3s Plus – FAQs

How many children in each session?

Each session has a maximum of 20 children.

How much does it cost?

Please contact our office for current year's fees as they change annually.

Can I do 2 sessions?

Yes, but it must be a morning and afternoon. You must also pay for two sessions.

What do I do if I have never left my child before?

Our staff are caring and understanding and will support you and your child through the separation. We suggest staying with your child for the first 10-15 minutes, listen to the activities for the session and perhaps start one with your child. Always remember to say goodbye and tell your child you will be back after our story.

What if my child has special needs?

Children with special needs are no exception as the programme will recognise and treat each child as an individual who has their own pattern and timing of development.

Please let our staff know as your child's needs can be assessed and then we can arrange for the appropriate care. For example, we can arrange for your child to have a special needs assistant if required.

My child isn't toilet trained.

That's OK, though the child needs to wear pull-ups.
